## New Varieties of Peaches Offered to New Jersey Growers for Commercial Tests

FALL 1932 - SPRING 1933

WHITE HALE - N. J. No. 63  
U. S. Plant Patent No. 31

The distribution of these new varieties is conducted under the direction of the New Jersey Peach Council, Inc., in cooperation with the New Jersey Agricultural Experiment Station

The Horticultural News, official organ of the New Jersey State Horticultural Society, contains timely information regarding new varieties, as well as other subjects of direct interest to fruit and vegetable growers. If you do not receive this valuable horticultural publication, write to the secretary of the State Horticultural Society, Arthur J. Farley, New Brunswick, New Jersey, and ask for a sample copy.

# **Eight New Jersey Agricultural Experiment Station Peach Seedlings Offered to New Jersey Growers**

For the past three years the New Jersey Peach Council, Inc., has been propagating a few of the more promising peach seedlings originated by the New Jersey Agricultural Experiment Station. All of the seedlings listed have had only a limited test and, therefore, distribution is confined to commercial test orchards in New Jersey.

## **DESCRIPTIONS**

### **N. J. No. 66**

A large, round, firm, red all over, white-fleshed peach of the Carman season. Hangs to the tree well, freestone when fully ripe, with a sprightly acid flavor.

### **N. J. No. 70**

A medium to large, firm, yellow-fleshed freestone of high quality which closely follows Golden Jubilee in ripening. Hangs to the tree well after ripening. Orders limited to 25 trees.

### **N. J. No. 71**

A large, round, firm, yellow-fleshed freestone of high quality, ripening a few days after N. J. No. 70 and Golden Jubilee. Hangs to the tree well when it ripens.

### **N. J. No. 73**

A large, round, firm, yellow-fleshed freestone of high quality, ripening with N. J. No. 71. N. J. No. 71 and N. J. No. 73 are close competitors, tests having not yet proven the superiority of one over the other. It is suggested that growers plant an equal number of trees of both varieties under uniform soil conditions in the same orchard in order to determine their relative value.

### **N. J. No. 82**

A large, oval, firm, yellow-fleshed peach of high quality, which closely follows N. J. No. 71 and N. J. No. 73, and holds to the tree well after it is ripe.

### **N. J. No. 87**

A large, oval, high quality, firm-fleshed peach of the Hiley season. It is larger than Eclipse and a candidate to replace that variety on the list of varieties recommended for planting in New Jersey.

### **N. J. No. 83**

A large, round, yellow-fleshed freestone of good quality ripening a few days later than Elberta. Orders limited to a maximum of 50 trees.

**White Hale** (United States Plant Patent No. 31) Formerly N. J. No. 63.

A large, firm, white-fleshed freestone ripening at the same season as J. H. Hale. Tree more vigorous and the flowers are fertile unlike the sterile J. H. Hale, which is one of its parents. All propagating rights are retained by the New Jersey Agricultural Experiment Station in accordance with the Federal Plant Patent Law.

Number of trees limited. Orders limited to a maximum of 100 trees each until November 1, 1932, after which orders for any balance on hand will be accepted.

## GRADES AND PRICES

### All varieties listed with exception of White Hale

Grade	25 to 100	100 to 250	250 to 500	500 to 1,000	1,000 or more
2½ to 3 feet.....	22 cents	20 cents	18 cents	16 cents	14 cents
3 to 4 feet.....	30 cents	28 cents	26 cents	24 cents	22 cents
4 to 5 feet.....	30 cents	28 cents	26 cents	24 cents	22 cents
Over 5 feet.....	30 cents	28 cents	26 cents	24 cents	22 cents

Less than 25 trees, 50 cents each. Orders limited to Nos. 66 and 87.

### White Hale Prices

Grade	25 to 100	Less than 25 trees
2½ to 3 feet.....	33 cents	75 cents each. All trees to be of the 3 to 4 foot grade or larger.
3 to 4 feet.....	45 cents	
4 to 5 feet.....	45 cents	
Over 5 feet.....	45 cents	

These prices include truck delivery to some central point, such as Moorestown, Hammonton, Glassboro, Freehold, or Lebanon, if the number of trees ordered makes such delivery practical. Trees may also be secured at the Princeton Nurseries, near Kingston, if the order has been accepted by the Peach Council, Inc. Small shipments to distant points of the state, including all orders for less than 25 trees, will be sent by express collect.

## FALL DELIVERY

Growers are urged to place orders as soon as possible. Fall orders will receive first consideration.

## PLACING ORDERS

All applications for trees should be sent to the New Jersey Peach Council, Inc., Box 278, Princeton, New Jersey. Applications approved by the Peach Council will be turned over to the Princeton Nurseries with instructions to fill the order and make delivery as specified on the application blank. Trees of these new varieties are offered to New Jersey growers in minimum lots of 25 trees of a variety, with the exception of seedlings N. J. No. 87, N. J. No. 66 and the White Hale. (A deposit equal to 10 per cent of the total cost of the trees is required with each order and the balance before delivery.) Orders will be filled in accordance with the date they are received. The grade specified in the order will be furnished unless the supply of trees of that grade is exhausted in which case another grade listed at the same price will be substituted.

**APPLICATION BLANK**  
**FOR TREES OF NEW JERSEY PEACH SEEDLINGS**

Numbers 66, 70, 71, 73, 82, 87, 83, and White Hale

FALL 1932 - SPRING 1933

Date....., 193

TO THE NEW JERSEY PEACH COUNCIL, INC.,  
Box 278, Princeton, New Jersey:
